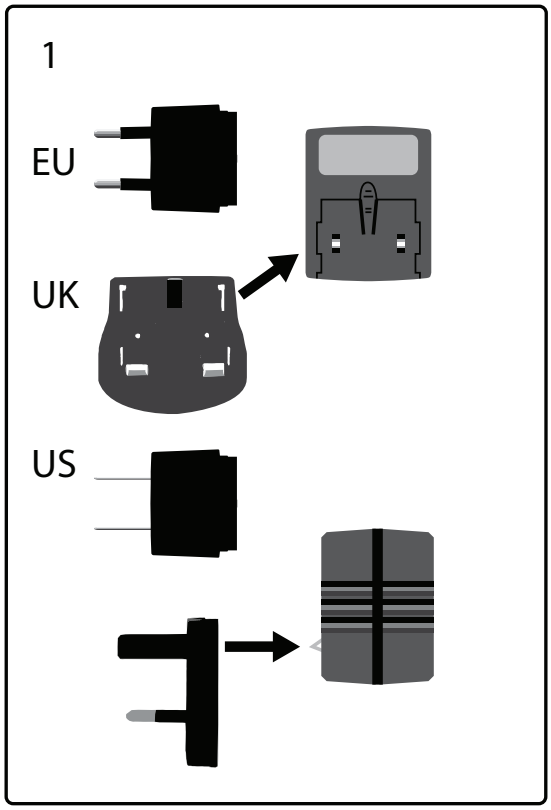
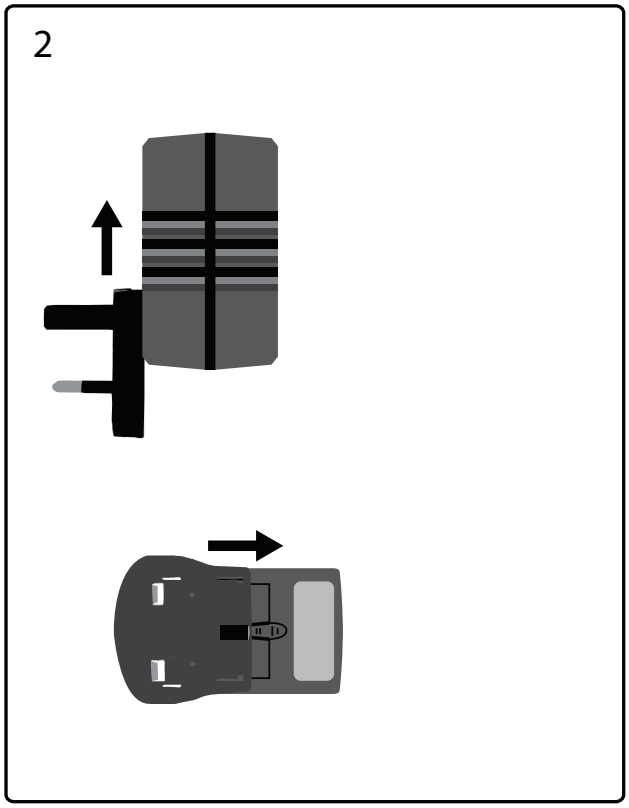
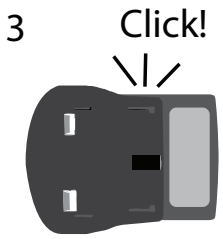
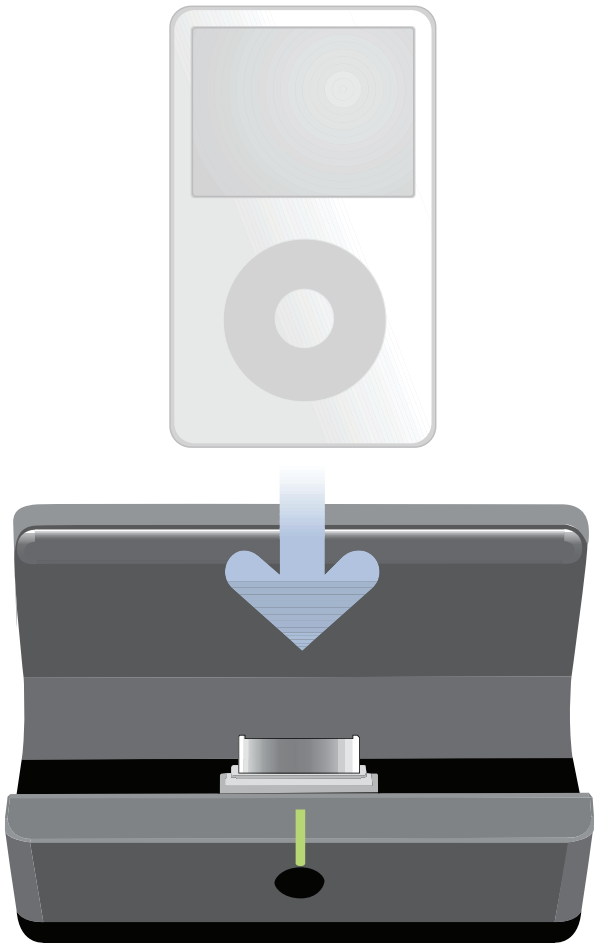
Power Adaptor Setup





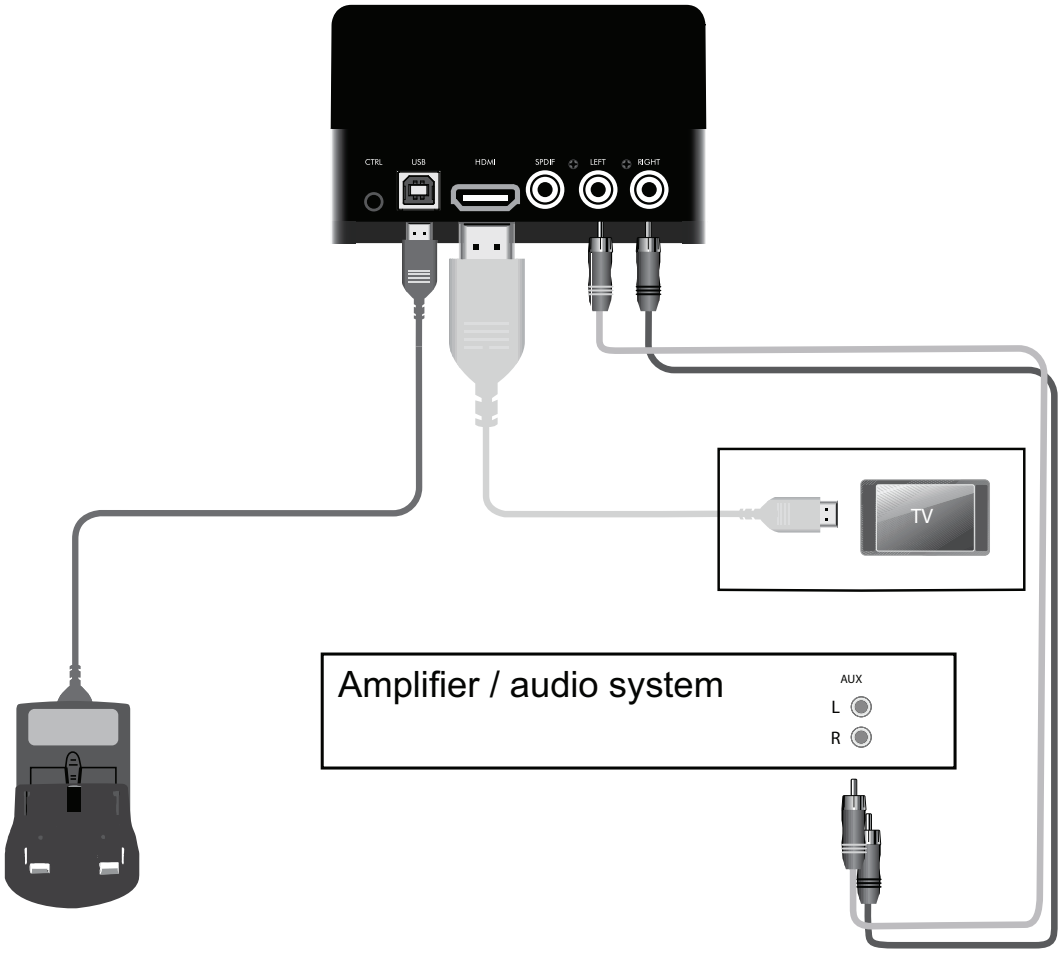


Docking your iPod



Standalone operation

Connections for any amplifier



Connect power adaptor, video cable (HDMI, optional) and audio interconnects.

Remote control (CR1)

The supplied remote control can be used to control your iPod when the drDock is not connected to a supported Arcam product. If you are using the drDock with a supported Arcam product, use the Arcam system remote instead.

Please remove the plastic tab to connect the supplied batteries before use.

Turn the dock on/off, activate USB sync mode (iTunes connection).

MENU — Go to previous menu (Albums, Artists, Playlists etc.).

Mute.

\+ — Increase volume.

\- — Decrease volume.

OK — Select music by playlist, artist etc.

RPT — Activate iPod repeat mode.

SHUF — Activate iPod shuffle mode.

No function on drDock.

Start or pause playback.

Jump to the next track, track start or previous track in the current selection.

Legal Information

FCC INFORMATION (FOR US CUSTOMERS)

1. PRODUCT

This product complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

2. IMPORTANT NOTICE:
DO NOT MODIFY THIS PRODUCT

This product, when installed as indicated in the instructions contained in this manual, meets FCC requirements. Modification not expressly approved by ARCAM may void your authority, granted by the FCC, to use the product.

3. NOTE

This product has been tested and found to comply with the limits for a Class B digital device, persuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This product generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this product does cause harmful interference to radio or television reception, which can be determined by turning the product OFF and ON, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the product into an outlet on a circuit different from that to which the receiver is connected.
- Consult the local retailer authorized to distribute this type of product or an experienced radio/TV technician for help.

Dear Arcam Owner

On behalf of the Arcam team, I would like to thank you for purchasing this Arcam product.

I trust that the care and effort we have put into building this equipment will be amply demonstrated in its superior performance and reliability, ensuring that you enjoy many years of listening/viewing pleasure.

I'd like to invite you to register your ownership of this equipment with us

Registering will prove useful should your Arcam equipment ever be damaged, stolen or in need of servicing. As a registered owner, we can also keep you up to date with any information relevant to your hi-fi or home cinema system, including upgrade opportunities and news updates. You can register online at *www.arcam.co.uk* – follow the link to Product Registration.

I would also ask you to complete the mini-questionnaire included in the online registration form. The information you provide will help us to ensure that Arcam customers continue to receive excellent service from ourselves and our dealers. I need hardly add that anything you tell us will be treated in the strictest confidence and will not be disclosed to third parties; we take our customers' privacy very seriously.

With best wishes and thanks

Charlie Brennan
MD, Arcam
